

GRMC code of Excellence

Agreement to Accept Responsibility and Accountability for "Code of Excellence" Standards of Behavior

I have read and understand the Code of Excellence and I agree to abide by and practice the standards in this Code intended to ensure excellence in both patient and employee satisfaction. I understand that these are performance standards and that when my job performance is evaluated these standards will be part of my evaluation criteria. I also understand that these are mandatory policies of Guadalupe Regional Medical Center that reinforce our hospital's core values of compassion, dedication, excellence, enthusiasm, and teamwork. Consequences for not following the code of excellence will result in performance counseling.
