

Guadalupe Regional Hospice Volunteer Program

Guadalupe Regional Hospice has served Seguin and the surrounding communities since 1990. During this time, compassionate Hospice volunteers have, with extensive training, served by visiting patients and their families in their own homes.

GRMC's Hospice Volunteers offer a time of rest for families and caregivers. When requested, they can be available to stay with your loved one while you run errands, go to the doctor or go shopping. Our volunteers offer emotional support, friendship, or just sit quietly at the bedside if need be. However, volunteers leave the "hands-on" personal care, including changing, lifting and dosing medications, to the family members or caregivers only.

To learn more, or if you think you or your family would benefit from a Hospice Volunteer, please call 401-7620.
